FOREWORD

For those of us researching HOUSTON, MACON, CRAWFORD, BIBB, UPSON, PULASKI, PEACH and surrounding counties, Deed Book A of Macon County is a very helpful addition to my abstractions. So far I have completed Deed Books A, B, C, D, E, F & G of Houston County and plan to do other related counties. There are so many bits of info found in deed books other than the actual sale of a piece of property.

My main purpose for abstracting the deed books of Houston County was to give me a beginning for the many families that I am tracing in Macon County. Since Macon County was partially formed from Houston County in 1837 and especially since the first 20 years of deed records of Macon County were lost in the courthouse fire in 1857, I needed these to give me the location of my groups.

The purchase of land will very probably give us a clue as to where our families lived, where they attended church and where they were buried. There are MANY Family Cemeteries in Macon County. Some are recorded, others have been lost through the years and mentioned only in early deeds.

It has been my hope to show the "fortunate drawer" on each deed for that Lot and District. By doing this, I find that the first sale or transfer of all lots in not found (yet), thereby leaving me to guess that it was never recorded, recorded in the county where the original drawer lived or possibly transferred by a Will.

There is a list found in the Houston County Courthouse that shows each "fortunate drawer" and the actual date that the land was actually put in possession of this drawer. Sometimes it was as many as 10 or 15 years after 1821. Neither this list nor the Land Lottery Book of 1821 by Rev. Silas Emmett Lucas, Jr. shows fractional lots. Likewise, fractional lots are not shown in the Land Lottery Book of 1827 for Muscogee and Lee counties, from which that part of Macon County west of Flint River was formed.

Fractional Lots are those bordering rivers and streams (including the Flint) and District lines boarding other counties in 1821 that did not contain the usual 202½ acres. In most of the early deeds we are given the acreage of the fractional lots.

In case of a note that I have added that is not actually in the deed, I have used brackets [ ] to indicate "my" additions.

Quotation marks " " are used to add any bits of info that are included in the deed that would not normally be abstracted but worth noting.

An underlined word or group of words could mean:

It is very special to my personal research.
It is illegible, a blank left for the info, found in a later portion of the deed and added.
If the drawer was located in one county at the time of drawing, but appeared in another county at the time of the sale. I wanted to call to your attention that this person had moved or possibly the county lines had been changed.

INTRODUCTION

On behalf of the Central Georgia Genealogical Society and it's Publication Committee, I wish to express our gratitude and appreciation to Mrs. Davine V. Campbell of Marshallville, Georgia for her contribution of abstractions of Macon County, Georgia Deed Book A. This book cover the period from 1857 to 1863 but contains the refile of many deeds that date back to earlier years. The Macon County court house burned about midnight on 25 February 1857, destroying all public records including the first five known deed books.

Macon County was formed in 1837, the ninetieth to be created in Georgia, and was named after Nathaniel Macon, a North Carolina statesman, once president pro tempore of the United States Senate. It's territory was taken from Houston and Marion counties. It's current land begin as part of four original land lot counties, Houston, Muscogee, Lee and Dooly.

The original county seat was at Lanier, a town that no longer exists, and remained their until 1854. At that time the railroad had come to Oglethorpe and the courthouse and most of the town business of Lanier moved there.

The land lot map of Macon County, shown in this book, was copied from one prepared in 1977 by the Middle Flint Area Planning & Development Commission. Unfortunately many of the land lots west of the Flint River are not shown as square, which they should be. Around the courthouse they joke that the surveyors were drunk when the land was staked out. Well that's not exactly so but this map, given out as the official land lot map of the county, is definiately not correctly prepared.

The 6 April 1827 Executive Minutes of Georgia, show the 1827 Land Lotter drawing was well under way when it was discovered that the clerks who prepared the lottery lickets had designated a number of square lots (202½ acres) as fractions and a number of fractions as square. Many grantees of lots in the 1st District of Muscogee County (now Macon County) complained of numerous errors. Some of these lots had been misnumbered on the trees and posts marking their bounds, and part of the district had not been run out at all. The legislature directed the governor to suspend the granting of lots in this district until the problem could be rectified. Mr. William P. Reid, the district surveyor, was given six months to resurvey the district. A year later, an act was passed to validate the grants of all fractions drawn in the lottery, to confirm the grants of those lots whose numbers had been changed by the resurvey, and to provide for the demarcation, by the county surveyor, of any lines in the district that still had not been surveyed. Since these corrections were made before the grantees received their certificates there is no reason for the current land lot map to be incorrect.

Be aware that many fortunate drawers in the Land Lottery system did not immediately apply and pay for their certificates. Some of the land was not very desirable for cultivation and if they had no prospects of a buyer it was left unclaimed. A State Law was finally passed that set a deadline to apply and on failure to do so the land would revert and be granted to someone else. This brought on a flurry of claims in the late 1830's and in 1845 and 1846 another flurry of new grants. Also be aware that a land owner paid his poll tax and real property tax in his county of residence. The Tax Digest for county of residence would show all the land he owned in different counties by District and Lot number. The only way the owners name would appear in the counties of non-residence would be if he had an Agent, Guardian, Trustee, etc living there.

Also be aware that a deed on a land lot drawn in the lottery system will not appear on deed books until the drawer or heir has paid for and received his certificate and subsequently deeded the land to another party. This could be many years later on the settlement of his estate.

For research of Macon County land prior to 1837 one must look to Houston, Muscogee, Talbot, Marion, Lee, and Sumter.

Mrs. Campbell typed her abstractions as she read the deed pages therefore a name may be spelled several different ways. In preparing the Index, the undersigned used the most predominant or frequently used spelling while cross comparing names with other state and county records.

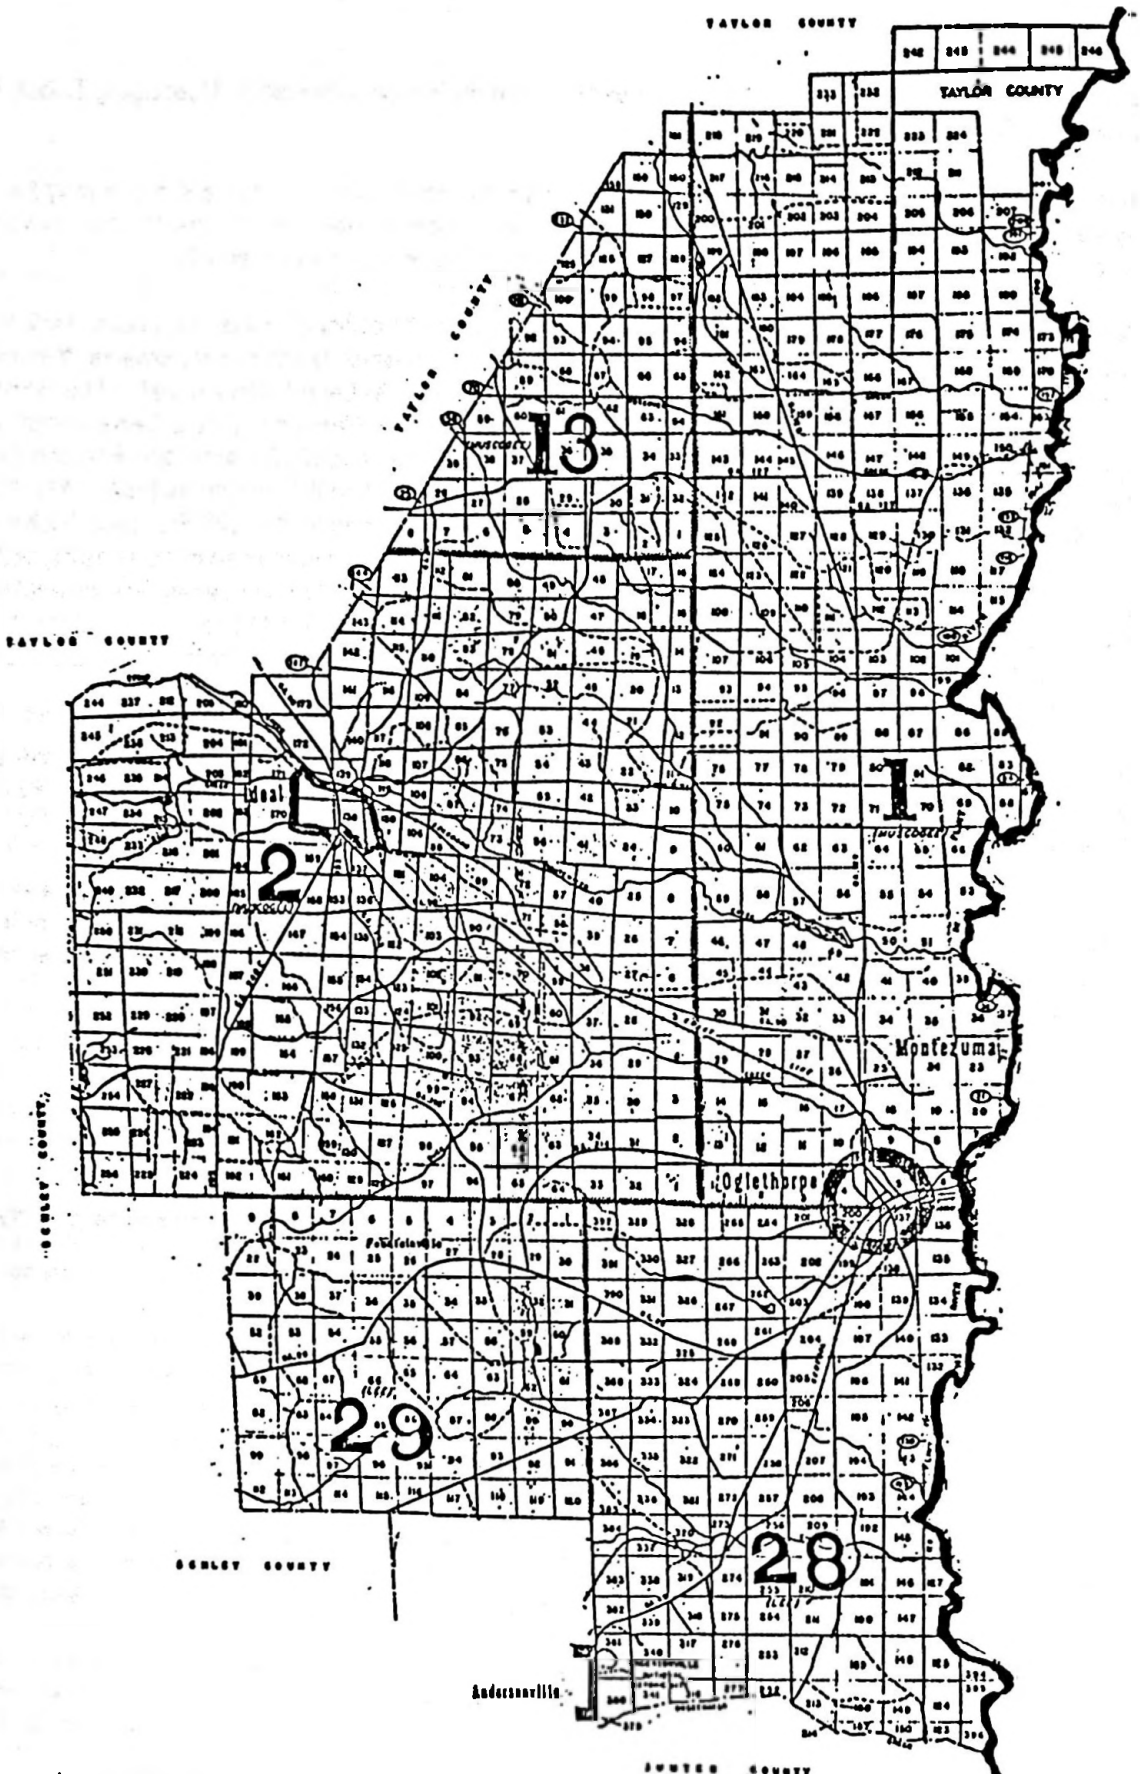

As stated by Mrs. Campbell, she used the 1821 & 1827 Land Lottery books by Mr. Lucas. Unfortunately these books were a secondary source with many omissions which led to her statements, "Not found by me in Land Lottery Book" and "Fractional Lots not contained in Land Lottery Book". The listing found at the Houston County courthouse was prepared in Surveyor-General's Office, Secretary of State of Georgia and is an authentic and complete list for those who drew full 202½ acre lots. Fractional Lots for Houston, Lee & Muscogee Counties were contained in a Fractional Grant Index Book 1805-1827 and certificates can be found in 1820-1821 Fractions Book's F & H and 1820-1827 Fractions Book's K, L, M & N. Fraudulent draws for Houston, Lee & Muscogee Counties are contained in 1820, 1821, 1827 Land Lotteries, Book B. Reverted land is contained in 1821, 1827, 1832 Land Lotteries, Fraudulent Reverted Land Book A & B. All of these records are now available on microfilm (15 rolls) in the Genealogical & Historical Room, Washington Memorial Library, Macon, GA. I therefore corrected and/or added the appropriate primary source for fractional lots.

To supplement the fine work Mrs. Campbell has done, the undersigned as Book Editor, has added a supplement index by District, Land Lots, Deed Book & Page, Current County Location plus 1821 & 1827 LL Grantees (Name & Residence), that appear in Deed Book "A".

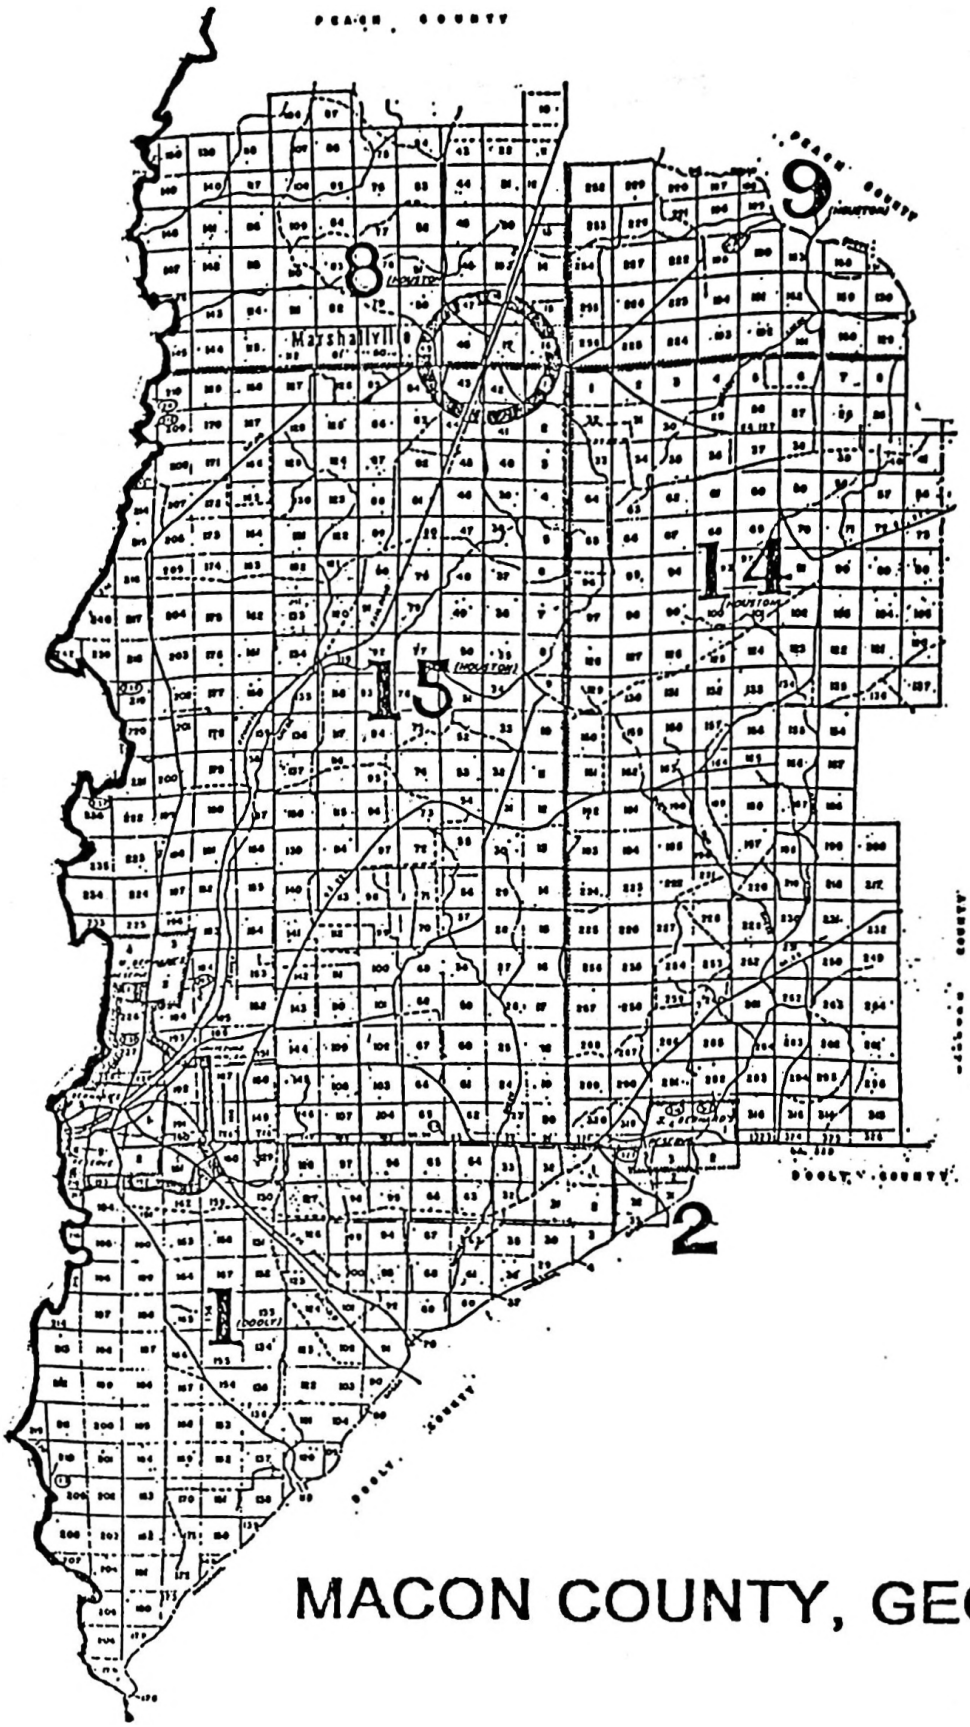

Last but not least, we wish to thank the trustees of the R.J. TAYLOR, Jr., Foundation, who awarded our society a grant to assist in the various non-labor costs of compiling this publication and the printers cost. The Foundation also absorbed the expense for printing some thirty-three additional copies which will be distributed to various libraries within the United States.

CENTRAL GEORGIA GENEALOGICAL SOCIETY, INC.
POST OFFICE BOX 2024
WARNER ROBINS, GEORGIA 31099-2024

Non-Profit Tax Exempt Org. GA

ORGANIZATION: The CENTRAL GEORGIA GENEALOGICAL SOCIETY, Inc. was organized in October 1978 by James T. Martin of Warner Robins, Georgia. In February 1981 the Society was incorporated as a non-profit organization under the law of the State of Georgia. The U.S. Internal Revenue Service has determined that the society is a tax-exemption organization under Section 501(c)(3), U.S. Internal Revenue Code of 1954. The Society is governed by a Board of Directors consisting of the elected and appointed officers and six elected Directors.

AREA: The Society's geographical area of primary interest consists of twenty-seven contiguous counties located in central Georgia. They are: BALDWIN, BIBB, BLECKLEY, CRAWFORD, CRISP, DODGE, DOOLY, HOUSTON, JOHNSON, JONES, LAMAR, LAURENS, MACON, MONROE, MONTGOMERY, PEACH, PIKE, PULASKI, TAYLOR, TELFAIR, TREUTLEN, TWIGGS, UPSON, WASHINGTON, WHEELER, WILCOX and WILKINSON.

PURPOSE: The purposes for which the corporation is organized are:

To collect, preserve and disseminate knowledge and information with reference to genealogical and related historical, biographical and heraldic data;

To inculcate and promote interest in research in these fields;

To stimulate and provide instruction in the use of efficient methods and the adherence to principles of accuracy and thoroughness in research;

To champion ethical standards and to discourage and oppose incompetent and disreputable practices or researchers;

To foster careful documentation and otherwise promote scholarly writing;

To issue publications, and

To promote the collection and the preservation of local records which are of genealogical or historical value.

MEMBERSHIP: Membership in the Society is open to any person interested in promoting the objectives stated above. Annual dues for 1994 are: $20.00 for individual membership; $25.00 for family membership (husband and wife, or two related persons in same household).

TRAINING: At least twice each year the Society conducts classes for beginner genealogists. These classes are free for members in good standing.

WORKSHOP: The Society plans to hold an all day workshop once each year, complete with exhibits, for members and the public. The registration fee will be set to cover the Society's cost and may vary from year to year, depending upon prices charged for food, meeting facilities, speaker fees, etc.

PROJECTS: The Society undertakes special projects for preservation of genealogical and historical information, such as: microfilming old newspapers, abstracting and publishing county court records, federal census records, cemetery records, etc.

PUBLICATIONS: The Society publishes a monthly NEWSLETTER and a QUARTERLY. The QUARTERLY is published four times per year as number 1 through 4 and is mailed to all members in good standing. The annual volume number represents the years in existence. Many other societies, who are members, receive our QUARTERLY. QUERIES, from members only, are published in the QUARTERLY free of charge. There is no limit as to the number of queries which a member may submit. BOOK REVIEWS are published when a copy of the book has been received by the Society. After review these books are donated to the Genealogical and Historical

Room, Washington Memorial Library, Macon, GA., whose holdings are one of the largest in the southeast. Members are encourage to submit ARTICLES FOR PUBLICATION in the QUARTERLY, and extra long articles may be serialized. The QUARTERLY is not copyrighted and anyone is welcome to make proper use of the contents; however, the use of articles quoted from other published sources is prohibited without permission from the copyright holder. Appropriate credit will be appreciated. The QUARTERLY is not sold by subscription. Current and back issues may be purchased from the Society when available. The Society welcomes the opportunity to publish FAMILY PEDIGREE CHARTS for members. Minimum coverage of four generations is required. Our computer designed charts provided for as much information on the fifth generation as the second, third and fourth - most charts provide much less. Give us as much complete information as possible on available forms and separate paper.

MEETINGS: The Society holds regular monthly meetings with planned programs. These meetings are currently held at the Flint Electric Building, 1600 Elberta Road, Warner Robins, Georgia at 7pm on the third Thursday of each month. In addition to the program, time permitting, a question and answer session is usually conducted for the benefit of members who have a problem with their research, or who has found a better way for accomplishing their work. Visitors and guest are always welcome to attend regular meetings of the Society. Our current membership covers many states and we invite you to join our Society. For a membership application write to the Corresponding Secretary at address shown in the heading above or call (912) 953-3114.
